## COMPANY OVERVIEW

NHPS is striving to be a leading supplier of specialized materials to the mining industry. With a comprehensive range of products and expert services, we cater to the diverse needs of mining operations, ensuring efficient, safe and productive extraction processes.

NHPS specializes in dealing with wholesalers, and carefully selects the finest quality products at the best possible price. Our network of reliable supply principals and well-established strategic partners help us to address the challenges faced by our customers in our rather transforming business environment.

# OUR MISSION

Our mission is to provide top-quality materials, exceptional service and expert knowledge to support the success of our clients in the mining industry. We strive to build long-term relationships, foster collaboration and contribute to the growth and sustainability of the mining industry.

## CONSTRUCTION MATERIALS

- **Steel:** plates, pipes, tubes, and sections for structural support and infrastructure development;
- **Cement:** bulk cement, cement additives and specialized cement products for concrete applications;
- **Aggregates:** crushed stone, gravel, sand, and other materials for road construction, drainage, and concrete production; and
- **Other building materials:** timber, roofing materials, and other essential components for mine infrastructure development.

## PRODUCTS & SERVICES

We offer a broad portfolio of products and services, including:

### ELECTRICAL MATERIALS

- **Cables:** power cables, control cables and communication cables for underground and surface mining applications;
- **Switchgear:** low-voltage and medium-voltage switchgear for power distribution and control;
- **Transformers:** dry-type and oil-filled transformers for voltage transformation and power supply; and
- **Other electrical components:** circuit breakers, fuses, and other equipment necessary for electrical power systems.

### MECHANICAL MATERIALS

- **Pumps:** centrifugal pumps, positive displacement pumps and other types of pumps for fluid transfer and processing;
- **Valves:** gate valves, ball valves, butterfly valves and other types of valves for flow control and regulation;
- **Gearboxes:** speed reducers, gear increasers and other types of gearboxes for mechanical power transmission; and
- **Other mechanical equipment:** conveyor belts, pulleys, and other components critical for mining processes.

### CHEMICAL MATERIALS

- **Reagents:** flotation reagents, leaching reagents and other chemicals used in mineral processing and extraction;
- **Explosives:** bulk explosives, packaged explosives, and initiating systems for blasting and rock fragmentation; and
- **Other chemicals:** lubricants, fuels, and other chemicals necessary for mining operations.

## Logistics & Storage

---

To ensure timely delivery and safe storage of our products, we operate:

- **Warehousing Facilities:** Our warehousing facilities provide secure storage for our comprehensive range of materials, including chemicals;
  - **Chemical Storage:** Our facilities are designed and equipped to handle the safe storage of chemical materials, adhering to strict safety protocols and regulatory requirements; and
  - **Inventory Management:** We employ efficient inventory management systems to ensure accurate tracking, monitoring and control of our orders.
- 

## Value-Added Services

In addition to our comprehensive product range, we offer various value-added services to support our clients' operations:

- **Technical Support:** Our team of experts provides technical assistance, troubleshooting and maintenance guidance to ensure optimal product performance;
- **Product Training:** We offer training programs for our clients' personnel, covering product operation, maintenance and safety procedures;
- **Customized Solutions:** Our team works closely with clients to develop tailored solutions, addressing specific operational challenges and improving overall efficiency; and
- **Logistics and Delivery:** We provide reliable logistics and delivery services, ensuring that products are delivered to site on time and in good condition.

## Values & Commitment

At NHPS, we value:

- **Quality:** We ensure our products meet the highest standards, complying with industry regulations and specifications;
- **Reliability:** We provide timely delivery, responsive customer service and technical support to minimize downtime and optimize productivity;
- **Safety:** We prioritize the well-being of our customers, employees and the environment, adhering to strict safety protocols and best practices; and
- **Innovation:** We stay abreast of industry advancements, offering cutting-edge solutions and tailored advice to enhance our clients' operations.

# QUALITY ASSURANCE POLICY

At NHPS, we are committed to delivering exceptional quality products and services that meet or exceed our customers' expectations. Our Quality Assurance policy is built on the following principles:

- **Customer Focus:** We strive to understand our customers' needs and preferences, ensuring our products and services meet their requirements;
- **Continuous Improvement:** We regularly review and refine our processes, products and services to achieve ongoing improvement and excellence;
- **Employee Empowerment:** Our employees are trained, motivated and empowered to take ownership of quality, making decisions that impact our products and services;
- **Supplier Partnerships:** We collaborate with reputable suppliers who share our commitment to quality, ensuring the materials and services we provide meet the highest standards; and
- **Compliance:** We adhere to relevant industry standards, regulations, and legislation, maintaining certification.

# HEALTH & SAFETY POLICY

At NHPS, we prioritize the health, safety and well-being of our employees, customers, contractors and the environment. Our Health and Safety policy is guided by the following principles:

- **Risk Management:** We identify, assess, and mitigate risks to prevent injuries, illnesses and environmental harm;
- **Compliance:** We adhere to relevant health and safety legislation, regulations and industry standards, maintaining certification;
- **Employee Engagement:** Our employees are trained, informed and encouraged to participate in health and safety initiatives, reporting incidents and suggesting improvements;
- **Continuous Improvement:** We regularly review and refine our health and safety policies, procedures and performance to achieve ongoing improvement and excellence; and
- **Accountability:** Our management team is accountable for implementing and maintaining our Health and Safety policy, ensuring resources are allocated to support its execution.

## PROJECTS **UNDERTAKEN**

NHPS (PTY) Ltd has successfully completed various projects for prominent clients in the mining, construction and infrastructure development sectors. Some of our notable projects include:

- Anglo American Platinum: Supply and Delivery of F-Shaped Barriers in various sizes, including:

- 110T;
- 135T;
- 270T; and
- 360T.

## PROJECTS **CREDENTIALS**

Completion letters and references are available upon request, demonstrating our commitment to quality and client satisfaction. Our experience working with major clients showcases our capabilities and expertise in delivering complex projects.

# Thanks for your time!

If you're looking for a reliable and trustworthy partner with a comprehensive range of products and expert services, look no further than NHPS (PTY) Ltd. Contact us today to learn more about how we can support your projects.
